

Advanced Mathematics  
Support Programme®

## Free Support for Schools to deliver excellent Careers Guidance

The AMSP helps schools achieve the **Gatsby benchmarks** of Good Career Guidance, particularly, benchmarks 2 through to 7.

Every year we work with **around 85% of state funded secondary schools and colleges across England, that's over 3000 institutions!** Make sure you aren't missing out on these **FREE** opportunities!

Gatsby Benchmark	Examples of the AMSP support
<b>02</b> Learning from career and labour market information	We provide up to date information on the <a href="#">post-16 maths options for students</a>
<b>03</b> Addressing the needs of each student	We offer sustained intervention and support for schools in <a href="#">priority areas</a> and provide <a href="#">strategies and support</a> to promote gender balance.
<b>04</b> Linking curriculum learning to careers	We have a wide <a href="#">range of resources</a> for students aged 11-16 and 16-19 to help link the maths curriculum to careers.
<b>05</b> Encounters with employers and employees	Our very popular, <a href="#">Which Career? panel events</a> allow students to question people from the world of work about the skills that are essential for their roles.
<b>06</b> Experiences of workplaces	We hold local enrichment events for students at employer venues.
<b>07</b> Encounters with further and higher education	Many of our events are hosted at Universities. On <a href="#">our website</a> and through our <a href="#">SUMS magazine</a> we offer insight into university and beyond. We can also help you <a href="#">support students</a> with their applications to competitive HE programmes.

**There's more!** We'd love to tell you more about what we do and explore how we can work together. You can get in touch with your [local Area Coordinator](#), or [request to be kept informed](#) of AMSP activities or email [careers@amsp.org.uk](mailto:careers@amsp.org.uk).

The AMSP is a DfE-funded initiative, providing support for teachers and students in state-funded schools and colleges in England.
