

Pathways: Parent and Carer Information Sessions

Advanced Manufacturing Session Links

- A recording of this session can be found, via YouTube, [here](#)
- A copy of the session slides is available for download via this [link](#)

If you have any questions regarding the session or information, please email support@allaboutstem.co.uk

LCR Be More

- [LCR Be More](#) provides Liverpool City Region specific apprenticeship information, vacancies and local labour market information.
- You can find open vacancies in the Advanced Manufacturing sector, along with some great videos from employers and apprentices [here](#).
- [iFate Occupational Maps](#) can also be a useful tool to explore career pathways.

T-Levels

- T-Levels are available from a range of schools/colleges in the city region. Many courses will offer pathways into green careers or use green skills. You can find out more about T-levels [here](#).

Apprenticeships

- Amazing Apprenticeships have resources available for students, teachers and parents/carers [here](#).
- [The Student Zone](#) features fabulous resources and also videos from real apprentices that you can view [here](#).
- Unilever's apprenticeship programmes are open for applications **now**. You can find out more about the opportunities available [here](#) - including their [Chemical Engineering Degree Apprenticeship](#).

Work Experience

- [SpringPod](#) offers free, virtual work experience in a variety of sectors, including opportunities from Amazon, The Institute of Chemical Engineers, Siemens and many more. Programmes may be subject to applications and/or eligibility criteria.
- Unilever offer a [work experience programme](#) for Year 12 students. Applications open in January and you can find out more information, including on how to prepare your application, [here](#) from the 2nd December.
