

## Pathways: Parent and Carer Information Sessions

---

### Energy and Net Zero Session Links

- A recording of this session can be found, via YouTube, [here](#)
- A copy of the session slides is available for download via this [link](#)

If you have any questions regarding the session or information, please email [support@allaboutstem.co.uk](mailto:support@allaboutstem.co.uk)

### LCR Be More

- [LCR Be More](#) provides Liverpool City Region specific apprenticeship information, vacancies and local labour market information.

### Green Careers Week

- Green Careers Week took place on the 4th - 9th November, but green careers aren't just for one week. [Downloadable resources](#) are available on the website for students, teachers and parents/carers.

### Green Career Paths

- iFATE occupational maps can be filtered to show 'green' jobs and pathways [here](#).
- [Explore Green Growth Pathways](#) on LCR Be More.

### T-Levels

- T-Levels are available from a range of schools/colleges in the city region. Many courses will offer pathways into green careers or use green skills. You can find out more about T-levels [here](#).

### Apprenticeships

- Amazing Apprenticeships have resources available for students, teachers and parents/carers [here](#).
- [The Green Careers Hub](#) provides information on developing your green career, including apprenticeships.

### Work Experience and Training Programmes

- [SpringPod](#) offers free, virtual work experience in a variety of sectors. This includes the [Institute of Chemical Engineers 'Engineering a Sustainable World'](#).
- SP Energy Networks offer a variety of pre-apprenticeship, year in industry and apprenticeship programmes. You can find out more [here](#).
