COMPANY

Liverpool City Region Careers Hub

We work with schools, special schools, colleges and employers to help every young person find their best next step.

Funded by The Careers & Enterprise Company, the national body for careers education in England, and in partnership with **Liverpool City Region Combined Authority**, we bring together education, training providers, businesses and careers professionals to ensure every young person receives outstanding, relevant careers education.

It all starts with skills

Skills for young people - Supporting young people with implementation of a national work experience guarantee to understand workplace skills and the different pathways to rewarding careers e.g. Apprenticeships & T Levels

Skills for schools and colleges - Connecting educators to local businesses and their skills needs through our local Liverpool City Region Employer Network

Skills for the economy - Supporting employers to close skills gaps and shape their future workforce through high quality education outreach
